The Pilgrim Path 4,5 km

Lindbäcksstadion trail 5,5 km

walking and jogging trails /  
roller ski-track

## WALKING TRAIL IN PITEÅ

1. Point of view tower
2. Mound of stones

# Lindbäcksstadion

Hiking 5.5 km or  
Pilgrim 4.5 km

**Lindbäcksstadion is a meeting place and a recreation area for all ages in harmony with nature. They offer activities all year round.**

## The Pilgrim path

A nice route to go, alone and in groups, with or without a rosary. Walk through beautiful scenery both in pleasant downhill and laborious ascents, just like life itself.

The trail is marked with rings and color markings in red, yellow and white. Our wish is that this walk will be both an inner and outer journey.

We hope that the fresh air, the beautiful scenery and the lyrics along the trail, which is taken from Frälsarkransen, will contribute to the thoughtfulness and recovery. At trail's end is the possibility to rest at a slope campfire.

The trail starts at Lindbäcksstadion, Vallsberget, about 10 min from Piteå City. The trail is a stretch of 4.5 km. The texts along the trail are available in Swedish and English. Frälsarkransen you can buy at Piteå Tourist center.

Lindbäckstadion trail 5.5 km

A nice path that fits big or small! Following the pilgrim trail but continue another kilometer up through the track with color markings in red and white dots. Then it turns through an amazing old growth forest where you in the fall can pick mushrooms, cranberries, raspberries or blueberries.

On the top, both joints go together at a point of view tower.

From there you have a good view and you can see all the way to Svensbyn, Lillpite, Öholma-Bridge and all way down to the sea. Here you can stop to eat your own picnic, enjoy the view and breathe the fresh forest scent!

At Lindbäcksstadion young people and family are the focus and we are keen that everyone can go everywhere.

## A plea to the hiker!

Carefully make your way through town and land,  
Please do not harm the sappy bark by hand.

Don't tear the white skin off the birch trees,  
And do not disturb the forest sounds with a screech.

Pick up your trash and picnic leftovers.  
Clean up after yourselves and respect the nature's powers.

Don't pillage and plunder the leaves and flowers.

Do not light fires - but if you must  
Extinguish the fires and turn coals into dust.

Please no drawing and scratching, non at all,  
with a knife or pen on a tree or wall.

Take care of all and everything,  
especially things that history sing.
